RESPONSE TO GLUA CLARIFYING LYON TOWNSHIP RESOLUTION 22-009 4/14/2022

Listed below are the items Lyon Township board put together from our work session on 4/13/2022 would like to see in determining a SAD from GLUA:

- Remove vacant lots for assessment, contingent upon that at the time of a building permit is applied for owner must pay up front full cost of sewer hook up unless they opted in for partial hook up during the assessment proceedings.
- The board will need to see significant grant funds awarded
- Properties that are not in the Higgins Lake Watershed should be removed from the sewer district.
- That there is a possibility of dividing the SAD into phases
